

October 24, 1978

Mr. Jim Bushnell
USU Extension Office
Fillmore, Utah 84631

Dear Mr. Bushnell;

Enclosed are the reports on the soil samples
that we submitted to Utah State for analysis.

These samples were taken at our Lime mine holdings
which is located as shown on the map which I have
also enclosed. The whole area is of similar soil.

Please give us your recommendation for reseeding
of the area, after mining.

Sincerely

Thomas W. Bergman
Plant Manager

TWB/vnw
